Fasco Contactors Keep Things Running Smoothly – While Meeting And Exceeding Industry Standards!

As you know, contactors play a small but vital role in the operation of many residential and commercial building systems – which make them an important item to keep in stock for your customers' ongoing replacement needs.

Fasco offers a wide range of definite purpose one, two, three and four pole contactors that are designed to meet or exceed industry performance standards. We also offer several models of three pole reversing contactors, as well as replacement auxiliary switches.

Which Fasco contactors will you want to keep in stock? You'll find our complete selection on pages 96-98 of the *Fasco Stock Replacements Products Catalog 45*, but some of our most popular contactors include our 75-Amp H375AC Series and our 90-Amp H390AC Series Contactors introduced just two years ago in 2011. These include 24-, 120-, 208/240-, 277- and 480-Volt models as follows:

- **H375AC/H390AC = 24 Volts**
- **H375BC/H390BC = 120 Volts**
- **H375CC/H390CC = 208/240 Volts**
- **H375DC/H390DC = 277 Volts**
- **H375EC/H390EC = 480 Volts**

Like all of our Fasco contactors, these H375AC Series and H390AC Series Contactors are UL recognized, and CSA and CE approved.

Fasco Contactors Meet ARI 780/790 Standards

When we say that Fasco contactors are designed to meet or exceed industry performance standards, we are referring to the 780/790 standards for contactor performance established by the industry trade organization ARI, the Air Conditioning and Refrigeration Institute. These standards requires extensive performance testing, including:

- Mechanical Life – 500,000 cycles
- Recycle Load Test – make and break locked-rotor current for 10,000 cycles
- Pick-Up and Drop-Out – tested at 150°F
- Coil Temperature Test – elevated ambient and input voltage
- Endurance Load Test – make locked-rotor current and break 125% full load current for 200,000 cycles

Fasco's extensive line of contactors includes our H375AC and H390AC Series Contactors available in 24-, 120-, 208/240-, 277- and 480-Volt models.

- Part Winding (optional) – make full load current and break locked-rotor current for 30,000 cycles
- Environmental Test – temperature and humidity cycling

If you'd like more information on any of our Fasco contactors or replacement auxiliary switches, please contact your Fasco Sales Representative or call our Customer Service Department at 1-800-325-8313.

Fasco also offers contactor replacement auxiliary switches, including the H6S, H7S and H9S models.

Upcoming eLab Webinars and Training Sessions

With eLab, you can take part in free training and educational programs on ECM motors and ECM-equipped systems. Upcoming sessions will feature a variety of ECM-related topics, which can offer invaluable experience direct from the manufacturer for anyone who works in the HVAC industry. Plus, eLab sessions are a really convenient way to learn, since you "attend" the sessions on your own computer.

You can register for any of the upcoming free eLab webinar sessions by visiting thedealertools.com/training and signing up today. Future eLab sessions will be offered throughout the mornings and afternoons on the following dates:

- May 7 & 28
- June 11 & 25
- July 9 & 23

Tradeshows Schedule

Our representatives are hitting the road again, attending a number of industry events across the country. They'll be showcasing some of Fasco's best-selling direct replacement motors, blowers and accessories, so if you're attending any of the shows listed below, be sure to stop by the Fasco/Regal Beloit booths and say hello!

HARDI Central/Great Lakes Regional Meeting

Geneva, Wisconsin
June 2-4

HARDI Southwest Regional Meeting

Vail, Colorado
June 9-11

ASHRAE Annual Meeting

Denver, Colorado
June 22-26

More Great Fasco Products To Keep In Stock

As you're planning your stocking needs this summer, here are a few more great products from Fasco that are always helpful to keep on hand.

The Multi-Horsepower D1127 Motor

Fasco's D1127 is a multi-horsepower replacement motor for Heatcraft Refrigeration products that replaces three different horsepower motors: 1/12, 1/15 and 1/20. The 3.3" diameter D1127 is a PSC motor with reversing leads that offers greater energy efficiency than the shaded pole motors often used in OEM equipment. It also features sleeve bearings, and is open ventilated, thermally protected, UL recognized and CSA certified.

Fasco's D1127 Multi-Horsepower Motor features reversing leads, and comes packaged with a large wiring diagram for easier installation.

Model D1127 Specifications

HP	1/12, 1/15, 1/20
Volts	115/230
RPM	1550
Amps	1.1/0.6
Rotation	Rev
Switch	No
Speeds	1
Shaft	5/16" x 3"

Available In Stock

Fasco Fan Blades and Fan Blade Accessories

Fasco Fan Blades and Fan Blade Accessories offer the same great quality that you've come to expect from our direct replacement motors and blowers over the years – and our great selection of these products make them a smart option to always keep in stock.

All of our fan blades are made of heavy-duty aluminum and are tested at 1000 RPM to ensure optimum performance. They're available in two, three, four and five blade models in diameters from 7" to 26", so there's a Fasco Fan Blade that's sure to be the right replacement for your customers' needs, whether it's for an air conditioning condenser, small or large appliance, or any other application as well.

For more details about the D1127 Multi-Horsepower Motor, Fasco Fan Blades, Fan Blade Accessories or any of our other products, just call your Fasco Sales Representative or our Customer Service Department at 1-800-325-8313.

Fasco offers a wide range of Fan Blades and Fan Blade Accessories, like the SFL1020-1 Fan Blade shown here.
